

Ready Egg Products Limited Environmental Statement

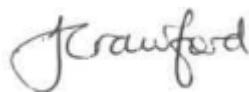

Ready Egg Products Limited are committed to environmental protection and conservation by managing our operations, products and services in a manner that supports environmental sustainability and biodiversity and ensuring our activities do not cause adverse impacts on the environment.

We will:

- Comply with environmental legislative requirements including the requirements set out in our DoE Effluent Discharge Consent, DAERA IPPC permit conditions and any other relevant environmental legislation. Please refer to the IPPC licence and our Environmental Management System which includes policies on:
 - Waste minimisation
 - Waste handling, storage and recovery procedures
 - Energy management
 - Water use audit
 - Raw materials audit
 - Noise management plan (traffic management plan)
 - Odour management plan
 - Site closure plan
 - Pest control plan (flies, mice)
 - Chemical storage
 - Aspects and Impacts register
- Promote and optimise a biodiversity action plan. To see our Biodiversity Action Plan: <https://www.readyeggproducts.com/cms/wp-content/uploads/2023/03/Ready-Egg-Products-Biodiversity-Plan.pdf>
- Promote environmental awareness and ensure employees understand their roles and responsibilities towards the environment. This is achieved through annual training.

- Ensure adequate emergency and incident response procedures are in place to prevent environmental impacts.
- Ensure adequate resources are available to implement this policy.
- Seek to continuously improve our environmental performance and sustainability.
- Continue to endeavour to reach our targets for our Climate Change Agreement (CCA).
- Complete our obligations under ESOS (Energy Savings Opportunities Scheme) and SECR (Streamlined Energy & Carbon Reporting) to help with reducing:
 - Energy and water use,
 - Waste,
 - Greenhouse gas emissions
- Please refer to our presentation on sustainability:
<https://www.readyeggproducts.com/cms/wp-content/uploads/2024/11/REP-Sustainability-Presentation-2024.pdf>
- Effectively communicate our environmental policy and commitments with employees, suppliers, customers, visitors and the public by having key policies highlighted on our website.
